ANNOUNCEMENT

The Tenth Anniversary Sale of the Tri-State Shorthorn Breeders' Association is a record of ten years of progress beginning with a half dozen consignors and about thirty head of cattle in 1941 to 26 consignors and 90 head of cattle in 1950.

From year to year the size and quality of the offering has become better, the number of consignors larger, the yearly attendance of buyers greater, and each succeeding year the buyers have set a higher average and higher sale top than the preceding year. Again, we believe that this year's offering will equal, and according to past history, probably excel last year's offering.

Cattle from this great sale have gone into ten different states. As always, the best from three states has been selected. The herds represented range from those that have gained top national recognition to those that are making a modest beginning, and in many cases made their initial purchases in former Tri-State sales.

Consignors have made honest efforts to steadily improve their herds by purchasing top animals wherever offered. This especially holds true with respect to herd sires. We believe that as many top sires are continually being brought into this area as any other like area in the country.

This offering of 48 bulls should appeal to the breeder, farmer and ranchman in need of a bull immediately or in the near future.

The offering of 38 females consisting of cows, bred and open heifers, will make ideal herd additions, replacements and foundations for beginners.

Cattle from the Tri-State Sale have done exceptionally well in the herds where they have gone in the past and this offering will do likewise as nearly all of these cattle have been bred, fed and raised under practical farm conditions.

We feel that you can attend this sale without being disappointed in the offering.

We sincerely hope that you will make definite plans to attend this show and sale, January 10, 1950. You will be more than pleased.

MERDALE GOLDEN MERCURY—could very easily be the most outstanding bull ever produced in Clyde Palmer's long successful career. He stood well in the money in the strong summer yearling class at the 1949 International show. One of the really outstanding Mercury bulls that will be sold this year. His dam is a beautifully bred Claret and a great-granddaughter of Browndale Goldspur and Imp. Lexicon. It will be worth miles of travel to own this great bull.
